

Bolton's Fund Cohesion

Improve connectivity and build trust and understanding between people of different backgrounds e.g. nationalities, origins, faiths and none, or identities.

By the word connectivity we mean, bringing people together, providing opportunities for people to get to know each other, to do things together, to spend meaningful time together, to break-down barriers. Examples of activities which help achieve the funding priority could include:

- Activities using shared local spaces to bring people together.
- Activities which bring people together to build on strengths in their community.
- Community events or celebrations that bring people together
- Activities that explore and share cultural heritage.
